

# SERIES D450 Stationary Inflatable Truck Shelter

## BENEFITS

- ▶ **SAVE** hundreds of dollars in reduced energy costs
- ▶ **IMPROVE** working conditions by keeping dust, dirt, debris & insects out
- ▶ **PROTECT** product & personnel from harsh weather conditions
- ▶ **INCREASE PRODUCTIVITY** by providing a safe & comfortable working environment
- ▶ **DURABLE** range of Hi-Performance fabrics to choose from
- ▶ **CUSTOM** sizes available

## SPECIFICATIONS

Generally designed to suit 10' wide x 10' high openings. The series D450 service a large variety of trailer heights. This unit allows full access to the rear of the trailer when loading and unloading. An internal oil tempered spring on the header air bag and counter weight retraction design on the vertical bags allows the top and side air bags to fully retract when not in use. This design prevents damage from incoming trailers since the unit is inflated after the trailer has docked and deflated before trailer departs.

# LDC offers a wide variety of custom inflatables to satisfy your dock requirements

- 1 Pressure treated framing resists rot (optional galvanized frame available)
- 2 Raked head frame diverts water to sides
- 3 Protective steel guards
- 4 Replaceable foam bottom pads seal gap between truck and building wall
- 5 Yellow guide stripe ensures accurate placement of trucks
- 6 Translucent polyethylene sheeting with UV inhibitors allows light into loading dock area
- 7 Galvanized trim angle will not rust
- 8 "Stop" logo on side air bag to prevent trailer from entering dock area if bag is accidentally left inflated
- 9 Air bag storage curtains prevent damage to air bag when retracted by any misaligned trailer
- 10 Optional "Reflective Guides" ensure accurate truck placement and help to protect frame from misaligned trailers

## CUSTOMIZE YOUR DOCK TO SUIT YOUR SPECIFIC NEEDS

(Top View)

Conventional foam pads protect against weather, but restricts access to the trailer opening.

(Top View)

LDC's D450 inflatable shelter provides full access to the rear of the trailer.

LDC can customize your dock seal with the ideal fabric for your application from a wide range of colours and fabrics available.
