WHEEL CHOCK**

WALL BRACKET

CAUTION SIGN

CHAIN

LDC's wheel chock package is a cost efficient way to help reduce the risk of "trailer creep" that can lead to product damage and personnel injury. Made from 100% fiber reinforced recycled rubber for super strength and durability, our wheel chock will not corrode or crack under extreme weather conditions. The security chain and wall bracket allows for quick and easy storage. The reverse image sign tells the driver that he must chock the trailer wheels before loading or unloading trailers.
